BRAND STORY

Based on the principles of the old mortar, CrushGrind® was developed to be more than just a pepper mill, established to create a better grinder than available on the market.

Through will, passion and a bit of nerdiness we invented the original ceramic mechanism—a revolution of traditional pepper mills enabling consumers to grind not only pepper, but also salt and all sorts of dried herbs and spices. Our invention made releasing the essential oils and full aromas from spices possible.

Our mindset is characterized by our authentic story and eagerness to create better kitchen tools.

We aim to inspire our consumers and give them the best gastronomic experience—because we believe that everybody deserves one.

SOL OVER GUDHJEM

CrushGrind® for the professional and home chefs.

We love cooking and are continually inspired by the best chefs and the food they create. Therefore, it was an easy decision when we were asked if we would sponsor Sol over Gudhjem, the biggest cooking competition in Scandinavia, with our grinders.

Every summer the best chefs in Scandinavia meet to compete in Gudhjem on the island of Bornholm, for the glory of winning the competitions, Dessert and Main.

Former Noma-Chef and current Michelin star chef Torsten Vildgaard was announced the winner in 2022.

Rising star competition is for the head chefs of tomorrow and is also hosted by Sol over Gudhjem. Each year four talented, young chefs compete for the chance to be named the Rising Star of the year.

“Our chefs are among the finest in Scandinavia and they will of course get the best products to work with and that’s why we choose to work with CrushGrind®.”

Mikkel Marschall - Chef and co-owner of Sol over Gudhjem.
